OUR MISSION

To safely deliver tailored, innovative and values-driven mining services to the Western Australian mining industry.

Our vision is to be the premier mining services provider of choice delivering safe, innovative, tailored solutions that meet the specific demands of each client's project.

We will lead the industry in safely performing activities across the entire mining supply chain, from pit to port.

Our vision will be achieved by combining innovative, fit-for-purpose solutions, a steadfast commitment to safety, and a culture of collaboration and respect. In doing so, we will deliver outcomes that exceed expectations, support thriving communities, and foster sustainable growth.

What We Value

Connection with our stakeholders, our partners and the communities we operate in is vital to Macro's success.

By aligning culturally, ethically and responsibly, and by setting clear expectations to everyone from the outset, these values will forge relationships that are collaborative, forward thinking and sustainable for long term mutual prosperity.

INTEGRITY & ACCOUNTABILITY

We do what's right, even when no one is watching, and we hold ourselves accountable for every decision.

CARE AND RESPECT

By fostering a culture of empathy, inclusion and mutual respect, we create the foundation for true leadership in a zero-harm environment, enabling everyone to thrive.

INNOVATIVE EXCELLENCE

Innovation fuels our progress and excellence defines our identity. By continually seeking new ideas, embracing emerging technologies and refining our processes, we achieve superior outcomes in planning, execution and value creation.

SUSTAINABLE LEADERSHIP

We design every project for longevity and shared value, ensuring responsible management of resources and the environment.

COMMUNITY FOCUSED

Through active listening and collaboration, we build genuine, long-lasting relationships with our communities. By co-creating opportunities for economic and social development and respecting cultural values and traditions, we ensure that every project leaves a positive, enduring impact.

How We Do What We Do

At Macro Mining Services, our approach to delivering exceptional mining services solutions stems from a foundation of experience, expertise and innovation.

While Macro Mining Services is a growing entity, our leadership team brings decades of industry experience that has driven growth and set industry benchmarks in incident free, pit-to-port mining operations.

Commitment to Safety and Sustainability

Safety and sustainability are non-negotiable aspects of our operations. We adhere to the highest safety standards, to ensure our people, the environment and the communities in which we operate are protected.

Our commitment to sustainability drives us to implement practices that minimise environmental impact, optimise resources and contribute to the long-term viability of the mining industry.

A People-First Organisation

At the core of our operations is a deep commitment to our people —our crew, our partners, and our clients. We believe that by investing in our people, we secure our success. Our people-first philosophy directly informs our approach to safety, training and development and our collaborative and inclusive workplace culture. This commitment ensures our people have the support, resources and opportunities they need to evolve and grow.

Experience-Driven Excellence

Our extensive experience in the mining sector informs every decision we make. We understand the industry’s complexities and challenges, from exploration to production, and leverage our vast knowledge and

know-how to deliver safe, innovative, and value adding services. Our experience ensures we anticipate challenges before they arise and implement solutions that keep our projects safe, on time, on budget and aligned with our client’s goals.

Innovation at Every Stage

Innovation is at the heart of our work. We continuously seek out and implement the latest technologies and best practices to enhance our service offerings. From advanced multi-stage crushing and screening to cutting-edge logistics and bulk material handling systems, we are committed to staying ahead of the curve. This forward-thinking approach allows us to deliver the safest and most efficient operations.

A Collaborative Approach

Success is a collective effort. Our collaborative approach ensures that we work closely with clients, partners, and stakeholders to achieve shared goals. We listen, adapt, and deliver solutions tailored to each project’s unique needs. We foster strong relationships built on trust and mutual respect to create a working environment that promotes teamwork, transparency and shared success.

Leadership That Inspires

Our Managing Director, Simon Rushton, has a proven track record of leading successful mining operations.

Innovative solutions, a commitment to safety and a culture of collaboration drive us to exceed your expectations and foster sustainable growth for your mining organisation.

Simon's multi-decade experience in the industry serves as the backbone of our company's strategic direction, providing us with the insights and expertise needed to navigate the challenges of modern mining and the provision of high-quality mining services.

His reputation, vision and leadership ensures we are not only meeting the needs of our clients today but are continually striving to achieve the "even better ifs". He believes organisational stability and sustainable, high performance is assured when the entire team feels respected, empowered and valued. His genuine commitment to our people's health and wellbeing fosters a workplace culture built upon trust, mutual respect and mutual accountability.

Our Services

At Macro Mining Services, we offer a comprehensive suite of mining services to support every phase of the mining life cycle from initial exploration to full-scale production and beyond. Our team of experts brings unparalleled expertise and dedication to the successful execution of all projects.

- 

1. EXPLORATION & GEOLOGY

6. MATERIAL HANDLING
- 

2. TECHNICAL SERVICES

7. LOGISTICS & ACCOMMODATION
- 

3. CONTRACT MINING

8. PORT SERVICES
- 

4. LOADING & HAULING

9. REHABILITATION

5. CRUSHING, SCREENING & PROCESSING

1. Exploration & Geology

Our Exploration and Geology services uncover and maximise the potential of mineral resources, providing critical data and insights to drive successful mining projects.

- **Data Collation and Information Memorandums:** Compilation and analysis of exploration data for informed decision-making.
- **Geochemical Sampling Programs:** Designing and executing targeted geochemical sampling to identify mineral deposits.
- **Exploration Targeting:** Identifying and prioritising exploration targets to optimise resource discovery.
- **Drilling (RC and Diamond):** Budgeting, planning, implementation and analysis
- **Project Reviews and Evaluations:** Comprehensive evaluations of exploration projects to assess potential risks.
- **Compliance Reporting:** Ensuring all exploration activities comply with regulatory requirements.
- **Presentations, Maps, and Plans:** Producing high-quality maps, plans, and presentations for stakeholders.

2. Technical Services

Our Technical Services ensure your project is accurately assessed, meticulously planned, and executed with precision. We leverage cutting-edge technology and adhering to industry-leading best practices.

- **Surveying and Mapping:** State-of-the-art equipment and techniques provide unparalleled accuracy for effective resource assessment, management and planning.
- **Information Technology and Automation:** Advanced IT systems and automation technologies streamline workflows, enhance decision-making and optimise operational efficiency.

By integrating innovative solutions with a commitment to quality, we deliver tailored outcomes that align with the unique needs and goals of every project.

3. Contract Mining

Macro Mining Services excels in the provision of comprehensively designed and planned contract mining services. From project management, equipment and personnel provision, to full-scale open-pit mining solutions.

- **State-of-the-Mining Equipment and Personnel:** Supplying state-of-the-art equipment and skilled personnel to ensure safe and efficient operations.
- **Open-Pit Mining:** Managing every aspect of open-pit mining, from planning to execution to maximising resource extraction.

Unlocking Growth and Potential

The strategic alliance between Macro and Paramount Earthmoving unites expertise, resources and an aligned culture to deliver you access to an extensive fleet of machinery. Currently, over 370 latest model machines, includes (but is not limited to):

- **Dozers** (D6–D11), **Dump Trucks** (40–240T) and **Excavators** (5–360T) with GPS
- **Graders** (140M-60M) , **Loaders** (992/WA900), **Rollers** and **Service Trucks** for diverse project needs
- **Water Trucks** (6.5-10kL) and **Road Trains** for seamless logistics

This enables Macro Mining Services to:

- Rapid response to project demands with scalable, efficient solutions
- Cost-effective operations supported by cutting-edge equipment
- End-to-end support that prioritises safety, sustainability, and innovation

Together we're redefining mining services and leveraging collaboration to deliver unmatched value and results.

4. Load & Haul

Efficient and cost-effective loading and transportation of mined materials are critical to the success of any mining operation. Our Load & Haul services ensure seamless material movement and operational excellence.

- **Loading of Mined Material:** Advanced equipment and techniques for safe, rapid and accurate material handling.
- **Hauling and Transportation Onsite:** Reliable hauling solutions to move materials seamlessly across the mine site.

5. Crushing, Screening & Processing

We offer unparalleled advanced crushing and screening expertise and innovation to tailor solutions specific to your location and minerals. Our team of experts will methodically assess and design/adjust/upgrade a technically efficient sequence that optimises both machinery performance and materials output.

- **Primary, Secondary and Tertiary Crushing:** Multi-stage crushing for maximum efficiency and optimal material size reduction.
- **Advanced Screening and Separation:** Precision screening technology for exceptional material separation and product sizing.
- **Smart Conveying Solutions:** Automated material transportation systems for enhanced operational efficiency.
- **Crushing of aggregates, ores and construction materials,** including transfer of feed into downstream ore processing facilities and mills.
- **Oversize materials stockpile processing** with rock breaker down to crusher feed sized materials.

6. Material Handling

Safe and effective material handling is critical to maintaining the flow and quality of minerals and resources throughout the mining process. Macro Mining Services provides comprehensive material handling services to keep your operations running smoothly.

- **ROM & Stockpile Management:** Expert management of run-of-mine pads and stockpiles to ensure consistent material flow.
- **Ore Handling and Storage:** Efficient systems for safely handling and storing ore that are ready for processing.
- **Bulk Material Logistics:** Coordinating the logistics and transportation of bulk materials for timely and efficient delivery across the supply chain.

7. Materials, Logistics & Accommodation

Streamline your stockpile supply chain with our strategically positioned materials, blending and maintenance services hub, offering a unique option for just-in-time delivery and cost-effective bulk operations.

- Located 28 km from Utah Point Bulk Haulage Facility
- Road network supporting 150T ultra-quad configurations for fast, efficient haulage
- Integrated crushing, screening and product blending capabilities
- On-site workshops, wash pads and accommodation

8. Port Services

Optimise the flow of your commodities using our port facilities that will minimise delays and increasing throughput. Our integrated port services and experience ensures quick vessel turnaround, improved logistics and seamless coordination with export partners.

- Vessel loading, unloading and transshipping operations
- Wharf management and cargo coordination
- Customs and regulatory compliance support
- Integrated scheduling and inventory control

9. Rehabilitation

We reclaim and restore disturbed landscapes, ensuring compliance with regulatory & cultural standards and fostering positive community and ecological outcomes.

- Landform design, re-shaping and stabilisation
- Topsoil management and revegetation programs
- Erosion control and water management strategies
- Ongoing monitoring, maintenance and compliance reporting

At Macro Mining, we forge partnerships built on trust, collaboration and shared values.

We diligently align our organisation with strategic partners who enrich our culture and capabilities, ensuring we consistently deliver quality outcomes.

As a result, our partners align with our core values of **Integrity & Responsibility, Care & Respect, Innovation & Excellence, Sustainability & ESG Leadership** and **Community Focused**, and who share our vision to be well-respected industry leaders in safely delivering every aspect of the pit-to-port mining supply chain.

Each partner brings unique strengths and expertise that ultimately drive our success and elevate our clients' satisfaction. Together, we create a seamless, integrated service that spans the entire mining life cycle.

Paramount Earthmoving is a trusted leader in providing high-quality mining equipment for both dry and wet hire. Our strategic alliance, strengthened by their significant shareholding in Nyapiri Macro Mining Metals Limited, allows us to leverage an extensive fleet of state-of-the-art machinery and skilled operators to quickly mobilize to remote sites. This collaboration enables us to execute large-scale mining projects efficiently, meeting tight deadlines while upholding the highest safety standards.

REGROUP

REGROUP's expertise in workforce management, logistics, and support services ensures precise, efficient project execution. By providing skilled personnel, operational support, and on-site services, they bolster our capacity for safe, productive operations. This partnership aligns with our commitment to safety, sustainability, and innovation, enabling us to deliver tailored solutions that exceed expectations for clients and stakeholders. Together, we offer a unified approach to meeting the challenges of modern mining.

Partnerships strengthen our capabilities and innovation, ensuring exceptional mining services for each client every time.

Norden Shipping (Australia)

Norden's expertise in safe, efficient and cost-effective bulk material shipping ensures the reliable transportation of resources from remote mine sites to global markets. With a proven track record in transshipping logistics, Norden provides specialized vessels and operational capabilities that optimize the movement of materials through shallow waters and congested ports, minimizing environmental impact and reducing costs. This partnership enhances our end-to-end pit-to-port capabilities, delivering unmatched value and logistical efficiency to our clients.

NORDEN

MGM BULK

Sustainability

Sustainability, recognised globally for their environment, social and safety expertise, have been specialising in environmental and safety management since 1999. With a dedicated team holding advanced qualifications in engineering, environmental science, sustainability and more, they develop integrated, cost-effective solutions that enhance client outcomes and long-term resilience. As a strategic partner of Macro Mining Services, Sustainability's deep knowledge and proven track record in auditing, due diligence, monitoring and consulting ensure our clients receive industry-leading reassurances in environment, safety and risk management.

MGM Bulk

MGM Bulk is a premier provider of bulk material logistics and transportation services. Their expertise in managing the complex logistics of bulk materials is invaluable to our operations, particularly ensuring the smooth flow of materials from mine to port.

Through our strategic alliances with skilled industry leaders, we've cultivated a culture of innovation and resilience that empowers us to tackle evolving mining challenges. By combining resources, we tackle even the most challenging projects in shorter time frames than if working independently, giving you confidence and peace of mind that your operations are in capable hands.

People First

Our people-first approach ensures that every project is completed with the highest safety, efficiency, and sustainability standards.

Discover the benefits of teaming up with Macro Mining Services

Our commitment to lead with safe, innovative and value add mining services remains steadfast as we continue to grow and evolve. Explore how Macro Mining Services can provide the expertise and solutions your project needs to thrive in today's competitive landscape where safe, low cost production is a critical ingredient to success.

"Macro Mining Services is committed to delivering industry-leading solutions through innovation, strategic partnerships, and an unwavering focus on safety, quality, and sustainability. Guided by a people-first approach, we ensure every project is executed to the highest standards, prioritising efficiency, safety, and environmental stewardship. Our dedication to continuous improvement and collaboration positions us as a trusted partner in driving success across the entire mining life cycle."

Simon Rushton, Managing Director
